

18 September 1957

Deputy General Counsel

John:

Per our telephone conversation, it is my opinion that DD/P probably will oppose the first sentence in paragraph 2, and most surely will oppose the last sentence. As a suggestion, you may wish to consider expanding the first sentence to provide for exceptions where required because of operational considerations. You could still require OGC concurrence. In regard to the last sentence, I would suggest that you revise the language to insure the Panel Members use was coordinated with you and okayed -- but not to be supervised by OGC.
